

Access to Electronic Information

It is the policy of the Chesterfield Township Library to make information available in a variety of formats from print to electronic materials. The library's electronic resources enhance the library's traditional collections and provide the opportunity to integrate electronically delivered information from networks around the world with other Library materials.

Databases purchased by the Chesterfield Township Library are available only to residents of Chesterfield Township with a valid Chesterfield Township Library card.

The Library receives its Internet connection, online catalog, and other databases through the Suburban Library Cooperative. Internet access within the Chesterfield Township Library is provided as a service; e-mail, usenet, newsgroups, and other interactive services are not offered.
