Resource Development Sessions

*Friday afternoons at 1 p.m.
in the library auditorium*

These work sessions will be held on **September 25, October 23, November 20 and December 18**. We use this time to index Macomb County records to create databases to help other researchers. If your own personal research has ever benefited from an online index to local records created by others, this is your chance to give back to the genealogy community by helping to make Macomb County records more accessible for everyone.

About our Group

We're informal ... and fun! There are no dues, and anyone who attends a meeting is automatically a member. If you have a genealogy research problem, feel free to make it known at any meeting and we will try to help. Beginners are especially welcome!
